Customer Report

Login issue

Root Cause Analysis

CONFIDENCE SCORE	80%	☐ HIGH
------------------	-----	-------------------------------

The login issue might be related to a recent change in the Auth.js file, as indicated by the suspect commit with SHA '1450661' which aimed to fix a login issue, but potentially introduced a new problem or did not fully resolve the existing issue.

Immediate Actions

1	Step 1: Review the changes made in the Auth.js file as part of the commit '1450661' to understand the intended fix and potential side effects.
2	Step 2: Test the login functionality with different scenarios to isolate the issue.
3	Step 3: Consider reverting the changes made in the commit '1450661' if they are deemed to be the cause of the current login issue.
